To the Manager

I am writing to you in regards to the proposal Lep 2013 put forth by the planning committee of the Lithgow Shire for the RUA rezoning placed upon my property of "Tayar Creek" 1155 Upper Nile road Glen Alice.

My family and I are totally against this proposition for rezoning our area and find it a grosse invasion of our rights as land owners.

My farm has been used for generations in all aspects of agriculture and as we make our living from it, we alone should be responsible for the well being and longevity of our land.

What right do the planners from the council have to put such communist actions into rezoning areas when they have no reasoning or understanding of the area.

We as land owners know the responsibility of care we have to our own land, but by the council laying down such huge restrictions on peoples livelihoods by telling them how and what they can do with their own land is a grosse injustice to the people trying to make a living and who keep this country, Australian owned produce.

Regards

L. E. Agnew
