**OBJECTION TO PROPOSED L.E.P. LAND RE-ZONING**

RE: Lot 1 DP 523434 & Lot 102 DP 731918  
Oakey Forest Road Marrangaroo

My wife and I formerly object to the proposed re-zoning of the above mentioned land to Private Recreation. We have previously submitted objections with no interest from Council in meeting with us. I once again request a meeting with Council to discuss the implications of the zoning.

We are of the opinion that a private recreation zoning basically inhibits effective land usage. If Council insists on zoning the land for recreational use, then Council should purchase the land. We understand that there are existing issues with certain types of land usage, however we wish to explore other potential land use, other than recreation. If we allow the rezoning to occur, and circumstances change in the area, to rezone the land either back to residential or to another zoning, can be an expensive and drawn out process.
