To Whom it May Concern

I really am worried and stressed by the proposal to Heritage list the Houses in this Street, especially mine of course.

Mainly because there are so many things that I want to do to the place.

They will not ruin the overall look of it or anything like that. But Heritage have such a terrible reputation of saying NO to Everything and Anything.

I want to put in bay windows in the front, (I have already asked Council verbally and been answered the same, that I can do this if I do not remove the top frame thereof) a proper garage. A landscaped style garden, possibly a large water tank a very small wind generator, a pergola (funds, and agreement by council permitting these things), and various other things as they occur or I can afford.

Please do not Heritage list the houses on this Street.

Sincerely

Laurel Austin.
