In response to your letter dated 28/6/13, Re: Proposed heritage listing of my property at  Williewa Street, Portland. I wish it known that I am against such listing of my property. The outside walls have been stripped and clad with hardie plank. The old windows have been removed and replaced with aluminium framed windows and the inside has been modernised. The house was in this modern condition when I purchased it 5 years ago and I consider it to have no significant heritage value.

I would prefer my name and address are not published on your website,

Thank you,
